

Large 12-square-inch touchscreen display — the industry's biggest

Dedicated programmable or non-programmable mode — installer-selectable

Unique color-coded temperature touch keys for quick adjustments

Extra-large touch keys for easy operation

Clean, uncluttered touchscreen display provides easier navigation

Available in two models: universal single stage (1F97-1271) and universal staging (1F95-1271)

Larger easy-to-read character size

Intuitive menu-driven programming, with audio prompt

The more advancements we make, the simpler it is to use

White-Rodgers has set a new industry benchmark with the 90 Series Blue Touchscreen. "Blue" advanced technology not only delivers all the best features, it's designed to be easy-to-view, easy-to-understand and easy-to-operate.

Simple and logical installer menu set-up, programming and operation are enhanced by audio prompting that confirms touchscreen entries. Features like variable touchscreen security to prevent tampering, temporary and vacation overrides, and filter change reminders add convenience. Our +/- 1° temperature accuracy will keep your customers comfortable and protect their HVAC systems.

90 Series Blue is the result of smart, innovative thinking. Install 90 Series Blue with confidence because it's exclusively for the professional trade. At White-Rodgers, Blue is more than a color.
